CONFIGURATION

CUSTOMIZE YOUR EDUSOLUTIONS TO SUIT YOUR SCHOOL

- 1. Customize your software feel & look (select your interface design & preferred portal Color Theme)
- 2. Create your Classes, Subjects and Psychomotor / Traits.
- 3. Define your Result grading, comment & remark criteria.
- 4. Define your Result Settings* (CA to Exam system, final term and cumulative scores computation criteria).
- 5. Create & Edit your portal's content (Text, Pictures, video & Audio) using our robust Content Management System.
- 6. Set result Admin Comment criteria and watch Edusolutions give you a smart result commenting system.
- 7. Define the cost on your Student/Parent Pin Card and generate unlimited cards & millions of extra revenue at Zero Cost.
- 8. Submit students scores & watch EDUsolutions compute an error free Result for you & your students.
- 9. Define amount payable for different payment system and categories & watch EDUSolutions compute an error free Tuition/Payment record.

Different classes within a school can use different result collation settings.

ADVANTAGE OF ONLINE SYSTEM

- 1. Secured Information can be accessed by authorized users (Administrators, Parents & Teachers) from anywhere, anytime on laptop, mobile device, tablet or PC.
- 2. Upgrades, Modification & Maintenance can be done remotely in seconds without the input of the software user.
- 3. There is no loss of data. Data is secured & backups are done regularly and automatically on servers hosted in data-centers.
- 4. SMS & Email services works seamlessly on cloud technology
- 5. There is No Virus Risk; Servers are maintained and protected by experts at **Data Center**.

2. Frequently Asked Questions & Answers

What is EDUsolutions?

EDUsolutions is a Cloud Based Learning & School Management Software that automates school's diverse operations anytime, anywhere. It is a content Management system (CMS) where users manage & modify software content on their own, with little or no I.T experience. EDUsolutions Web Application was developed by a team of ZCE (Zend Certified Engineers) using the latest Zend framework.

How will EDUsolutions support my unique educational system?

EDUsolutions is able to support different kinds of educational systems. Grading criteria, class levels, report cards, are all customizable within minutes.

What kind of software or device do I require to run EDUsolutions?

All you need is a Web browswer such as Google Chrome, Mozilla Firefox or Internet Explorer with a Computer System, mobile device or a Tablet computer and a moderate level internet access.

Can I install EDU solutions on my own server?

We currently only provide an online (cloud) version of our software. In this way, we are able to guarantee availability of our server, provide support to all users, provide continuous upgrades in an efficient manner, as well as protect our intellectual property.

Do you offer support to clients?

Our technical support team will assist with any technical problems you may face. Support provided throughout the week by email (support@edusolutionsonline.us), phone (+2347033934211, +2348068373182) as well as live chat anytime.

Does EDUsolutions offer training services?

Our interface is easy to understand from the start. However, we offer one-on-one startup training for school admin on deployment. If you encounter problems after the initial training, you have access to our support personnel who are always happy to assist you.

How do you ensure continuous availability of the EDUsolutions (cloud) application?

We ensure that you have 99% uptime. To deliver this level of reliability, we host our application on world-class data centers. These are the same data centers that carry traffic for first class international organizations world over.

Does EDUsolutions offer custom software development?

We provide upgrades and enhancements based on demand. So let us know what your needs are, if there is a demand for it, it will be included in our upgrade. Note: if a specific school needs an urgent custom development (which is out of the scope of EDUsolutions system) before a new edition release, we can do so upon negotiation.

Are there hidden fees I should know about?

Everything is included in the EDUsolutions SaaS (Software as a Service) Maintenance cost, including access to 24-hours support, maintenance update, new feature upgrade, dedicated server hosting, Daily Data Backup & Enterprise domain name, Bulk SMS units, Pin Generation, e-Library access & lots more.

Who will provide supporting infrastructure?

Supporting infrastructure like internet access, computer & peripherals (computer system, printer, scanner etc) will be provided by the client.

Can EDUsolutions also serve as my school's website?

Coupled with the automation activities, EDUsolutions also comes pre-loaded with all features of a standard website that showcase school's facilities and information to millions of local & global audience. The website component is a Content Management system (CMS)

3. Result Management

Fig A is a portrait report card view using a CA(20): CA(20): EXAM(60) CA to EXAM System.

Fig B is a landscape report view using a CA(100): EXAM(100) CA to EXAM System.

Fig C is a traits & Behaviourial assessment collation system.

Fig D is a Result Broadsheet Sample.

Fig E is a bulk class result collation method using a CA(100): EXAM(100) CA to EXAM System.

Fig F is a report card/Performance assessment sample for pre-school classes (optional).

Fig G is a single student result collation method using CA(10): CA(10):

- •Configure your settings by defining your unique CA to Exam ratio, CA score, Exam score, grading system, collation system, result analysis parameters, result graph type, graph colours and lots more.
- •CA to EXAM collation system settings can be uniquely defined for each class, which can be changed every academic session.

Page 3

4. Features Highlight

Students can access Lesson Notes, Assignments & other Educational contents (e-notes, videos, audio & pictures) and provide interactive feedback.

Interactive Alumni Portal with Advanced Facebook-like Profile record & Discussion room (Meet Old friends & Discuss issues)

Our virtual classroom supports; audio, video, screen sharing, messaging, class recording, pin card access, live streaming options with multiple classrooms running simultaneously.

Our Admin activity monitor helps to track & record of all staff admin activities on the system.

Staff activity is logged with time stamp to show date, time and activities done by each staff.

This is a security measure to audit admin activities.

Edusolutions will archive students' result from enrollment to graduation. Results & other records can also be retrieved post-student graduation

With our smart Academic/event calendar, staff, students & parents will never miss out on key school events again. Inform & be informed of events date & time on our smart calendar.

Our report card comes with a Career Prediction module and graph analysis. Using advanced analytics and algorithm, Our Edusolutions LMS is able to provide insight into students' prospective career. Our graph Presentation also provide powerful result analysis with graphical overview of a child's performance, showing strength & weakness.

A smart & easy way to search and access all your student information & records, both current and archived using various filter.

Behaviour Points System is a point based behaviour tracking & reward system that ensures Students behaviour focuses on positivity. Award (+ / -)points to students, houses and classes. Reward the best behaved Student, house and class at the end of each Academic Term & session.

Our attendance system helps school record daily students' attendance. Our software has the capability to mark both morning & afternoon attendance where necessary. Our attendance system also comes with unique SMS alert that sends real-time attendance notification to parents.

Accept online card payment of tuition, admission fee, donations on your portal using our secured payment integration.

Automated Birthday, Holidays Greetings to Staff and Students (via Parent Mobile). The automated birthday shows that you care about your students & staff.

e-Admission allows prospective students apply for admission from the comfort of their homes. This also helps school electronically communicate admission decision in a timely manner (Through Email & SMS)

In-Built Student and Staff ID Card generator.
This ID Card is equipped with scannable security
QR / Barcode for security & attendance authentication.

Use our interactive photo gallery system to manage your event photos. Our photo gallery system helps you to seamlessly upload pictures, add descriptive text & sort images in order of preference.

Create Timetable using our smart drag & drop timetable module (+ Auto Generator)

Instant SMS Alerts to Staff & Parents' mobile numbers on important Activities (Student / Staff Profile registration, payment record upload, missed attendance. Admission application & lots more).

Our Bulk Messaging system helps you send timely messages to parents and staff, leveraging on the existing students and staff record already registered on your portal.

Generate and print your students' electronic testimonial quickly on Edusolutions School management system. e-Testimonial also comes with an online testimonial Checker option

Edusolutions Edutainment contain educational games (word guess, word scramble games & lots more). Our software contains **word** database that can be updated by school's admin for optimum user's entertainment & learning experience.

Our Exam / CBT module is a multiple choice exam system. It can be used for Entrance exams, recruitment exams, Assignments, Mid-term exams, Mock exams & lots more.

Use pin-card for Result Checker & other key access (testimonial, exams, library, payment record etc).
Revenue generation option: Generate Pin Card at Zero cost & give or sell to your Students at desired rate.

Manage your students payment using our tuition record management system.

Manage your online enquiry using our smart reply system. Response to online enquiries are sent to email & mobile numbers of enquirers in a swift manner. Your portal also archives all enquiries and response(s) on your database for future reference.

8. Information Required to Setup your Software

This Document highlights all necessary information that would be needed to accurately build and deploy your EDUSOLUTION Portal.

Completed document and Information should be mailed to *info@edusolutionsonline.us*

GENERAL INFORMATION REQUIRED (All fields are required)

- 1. School Name
- 2. Preferred Domain Names (3 options in order of preference. e.g. www.yourpreferredschoolname.org)
- 3. Schools Slogan/Motto.
- 4. Email Addresses on your domain name (e.g. usemame@yourpreferredschoolname.org)
- 5. Contact Details (Phone Numbers and [previous] Email address)
- 6. Year school was founded.
- 7. Physical Addresses and Branches (To include P.O.Box if available)
- 8. About your School (Who we are, Location, Vision & Mission statements, Enrollment, Activities & Achievements)
- 9. Message and Pictures from the Proprietor's / Administrator's Desk.
- 10. List, Pictures and Description of Facilities [at least 6 Facilities] present in your school (e.g. Laboratories, Boarding, Sports, Medical, Ubrary, Computer/ICT etc).
- 11. List of Classes and Class arms
- 12. List / Description of Subject Offered [and corresponding classes] (e.g. Physics-Ss1, Ss2, Ss3)
- 13. Sample [PDF File/Hard copy] of Admission form(s) & Admission application procedure.
- 14. Scanned report card, Grading System, ranking system in use at your school (for result and grade management)
- 15. Preferred Colors, theme for your portal.
- 16. List of frequently asked Question (by parents/Guardians) and Answers.
- 17. Electronic copies of relevant Document & Pictures (such as; prospectus, school logo, buildings & structures, Events, facilities, Staff group pictures, Students group pictures, pictures of administrator and other principal officers)
- 18. Full names and signature [scanned] of administrator/proprietor and principal or counselor (to be used on report card & ID cards).
- 19. Any other document/information that would be helpful in the course of completion of your portal.
- 20. Application for the use of electronic payment platform on your portal (Only schools applying for online payment integration should complete the under listed information).

INFORMATION REQUIRED FOR ONLINE EDUSOLUTIONS PAYMENT INTEGRATION

Fields marked with (*) are required.

- 1. Corporate Organization details (*Corporate ID, CAC Registration No, Tax Number RC, Pencom ID)
- 2. *Corporate Full Name.
- 3. Transaction initiating Officer (*User ID, *Surname, *Other Names, *Mobile No. *Email)
- 4. Transaction Approving Officer (User ID, "Surname, *Other Names, "Mobile No, "Email)
- 5. Account Details (*Bank Name, *Branch, *Account No, *Transaction Daily Limit)

Note: All text and graphics should be in electronic form. All text should be checked for errors before submission. It is recommended you designate a staff of your organization permanently to this project for ease of communication, subsequent management and data entry.

If you have issues completing this form, please call us on 08068373182, 0703 393 4211

Pricing Plan [Portal & Advanced website]

There are 2 Cost associated with EDUSolutions-pro package

- 1. EDUSOLUTION-pro Software Set-Up / Configuration fee (One-Off Payment)
- 2. EDUSOLUTION-pro Software subscription fee (Annual Renewal)
