CONFIGURATION

CUSTOMIZE YOUR EDUSOLUTIONS TO SUIT YOUR SCHOOL

1. Personalise the software's look and feel, select your preferred interface design and portal colour theme.
2. Set up your classes, subjects, and psychomotor/trait areas easily.
3. Define your result grading, comment, and remark criteria to match your school's standards.
4. Configure your result settings, including CA to Exam ratios, final term, and cumulative score computation.
5. Use our powerful Content Management System to edit your portal's text, pictures, videos, and audio content.
6. Set up your result Admin Comment criteria and enjoy automated, smart result remark generation.
7. Define the price for your student/parent Pin Cards, then generate unlimited cards and unlock extra revenue, at zero cost.
8. Submit student scores and let EDUSolutions compute accurate, error-free results instantly.
9. Define the amount payable for different fees and categories, and watch EDUSolutions handle tuition/payment records with precision.

Note: Different classes within the same school can use separate result collation settings, ensuring flexibility across levels.

TIP

Advantages of an Online System

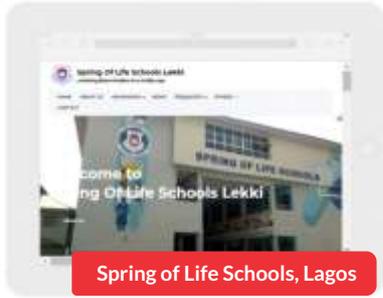

1. **Anywhere, Anytime Access:** Authorised users, including administrators, parents, and teachers, can securely access information from any device: laptop, tablet, mobile phone, or desktop computer.
2. **Remote Upgrades & Maintenance:** System updates, modifications, and maintenance are carried out remotely and seamlessly, with no disruption or need for user input.
3. **Automatic Data Backup & Security:** Your data is safely stored on secure cloud servers with regular automated backups, eliminating the risk of data loss.
4. **Integrated SMS & Email Services:** Communication features like SMS and email work efficiently through cloud technology, enabling timely updates and notifications.
5. **No Virus Risk:** The system is hosted on professionally maintained servers, protected by cybersecurity experts, minimising exposure to viruses or malware.

What is EDUsolutions?

EDUsolutions is a powerful cloud-based Learning and School Management Software designed to automate and simplify your school's operations, accessible anytime, anywhere on mobile, tablet, laptop, or desktop. Built by a team of Zend Certified Engineers using the latest Zend Framework, EDUsolutions is reliable, secure, and scalable. It features an intuitive Content Management System (CMS) that empowers users to easily manage and update content with little or no technical expertise, making school administration smarter, faster, and more efficient.

How will EDUsolutions support my unique educational system?

EDUsolutions is built for flexibility. Whether your school follows a national, international, Montessori, or hybrid curriculum, our platform adapts seamlessly. You can customise: Grading criteria, Class levels, Result collation systems, Report card formats, all within minutes. EDUsolutions ensures your school's unique structure, assessment style, and reporting standards are fully supported.

What do I need to run EDUsolutions?

EDUsolutions is cloud-based and easy to use. All you need is: A web browser (e.g. Google Chrome, Mozilla Firefox, Safari, or Microsoft Edge). A device – Computer, Laptop, Tablet, or Smartphone. A moderate internet connection. No software installation is required. Just log in and start managing your school from anywhere, anytime.

Can I install EDUsolutions on my own server?

At the moment, EDUsolutions is only available as a cloud-based platform. This allows us to: Ensure 24/7 availability and performance. Deliver seamless updates and feature upgrades. Provide reliable technical support to all users. Maintain the integrity and security of our software. Protect our intellectual property. This model ensures that every school gets the best experience without the stress of server technical overhead.

Do you offer support to clients?

Yes, we do! Our dedicated technical support team is available to assist with any issues or questions you may have. We provide support through the following channels: Email: support@edusolutionsonline.us. Phone: +234 703 393 4211, +234 806 837 3182. Live Chat: Available directly on our website for real-time assistance. Support is available throughout the week, ensuring you always have help when you need it.

Does EDUsolutions offer training services?

Yes, we do. While EDUsolutions is designed with a user-friendly interface that's easy to navigate from the start, we also provide one-on-one startup training for school administrators during deployment. If you encounter any challenges after the initial training, our support team is always available to guide and assist you further.

How do you ensure continuous availability of the EDUsolutions (cloud) application?

We guarantee 99% uptime by hosting EDUsolutions on world-class, highly secure data centres—the same infrastructure trusted by leading global organisations. This ensures continuous access, fast performance, and high reliability for your school anytime, anywhere.

Does EDUsolutions offer custom software development?

Yes, EDUsolutions evolves with the needs of our users. We regularly provide upgrades and new features based on user demand. If a specific feature is widely requested, it will be included in our future updates at no extra cost. However, if your school requires a unique or urgent custom development outside the current scope of EDUsolutions, we can provide this upon request, subject to feasibility and a negotiated fee.

Are there hidden fees I should know about?

No hidden fees, everything is included. Your EDUsolutions annual SaaS (Software as a Service) subscription covers: 24/7 technical support. Regular maintenance & new feature upgrades. Secure, dedicated server hosting. Daily automated data backups. Free enterprise domain name. Bulk SMS units. Pin card generation system. Full access to the e-Library. And much more. You enjoy transparent pricing with premium services bundled, so you can focus on running your school, not worrying about extra costs.

Who provides the supporting infrastructure?

The client (school or institution) is responsible for providing the required infrastructure to run EDUsolutions effectively. This includes: Internet access. Computers or mobile devices. Essential peripherals such as printers and scanners. EDUsolutions is cloud-based and runs smoothly on standard web browsers, so no specialised hardware or software installation is required.

Can EDUsolutions also serve as my school's website?

Yes, it can. In addition to its robust automation features, EDUsolutions includes a fully functional Content Management System (CMS) that serves as your school's official website. This CMS-powered website allows you to: Showcase your school's facilities, news, and achievements. Share key information with both local and global audiences. Easily update content like announcements, admission details, galleries, and more, without needing advanced technical skills. With EDUsolutions, your school not only runs efficiently but also has a professional web presence that's accessible anytime, anywhere.

Fig G

- Fig A: Portrait-style report card using a CA(20) : CA(20) : EXAM(60) structure, a detailed and vertically aligned result view.
- Fig B: Landscape-style report card with a CA(100) : EXAM(100) ratio, ideal for wider result displays and comparisons.
- Fig C: Traits and Behavioural Assessment Collation, focuses on non-academic metrics like conduct, attitude, and social skills.
- Fig D: Sample of a comprehensive Result Broadsheet, designed for administrative and performance tracking use.
- Fig E: Bulk Class Result Collation format using a CA(100) : EXAM(100) ratio, optimized for bulk result processing.
- Fig F: Preschool Report Card / Performance Assessment, tailored for early learners with simplified layouts.
- Fig G: Individual Student Result Collation format using CA(10) : CA(10) : CA(10) : EXAM(70) structure, ideal for primary/elementary schools.

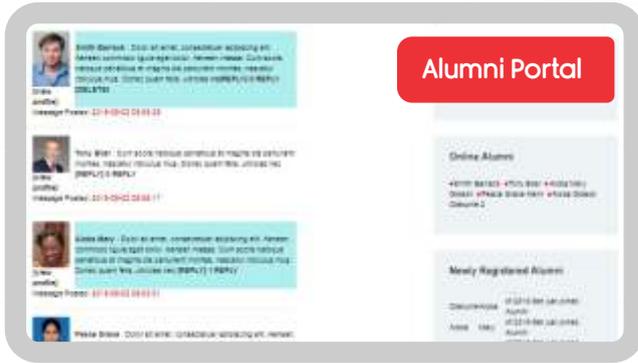

Flexible Result Configuration System

- Easily configure your school's result system by defining your preferred CA-to-Exam ratio, CA and Exam scores, grading scheme, result collation structure, performance analysis parameters, graph styles, colours, and more.
- Each class can have its own unique CA-to-Exam settings, which can be updated or redefined every academic session, giving your school complete control and flexibility.

AI-Powered e-Learning

Give your students 24/7 access to eLearning resources on EduSolutions. Experience our AI-powered eLearning module to create lesson notes, assignments, and engaging educational content. You can also upload manual e-notes, videos, audio clips, and images—all in one place, with interactive feedback and support.

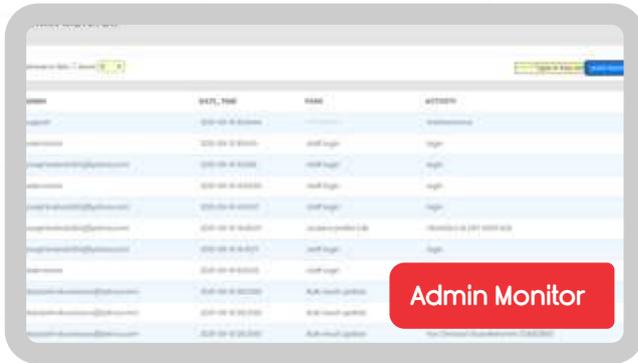

Alumni Portal

Interactive Alumni Portal with Smart Profiles & Discussion Room. Reconnect, network, and engage! Former students can create rich, Facebook-style profiles, reconnect with old friends, and participate in meaningful group discussions.

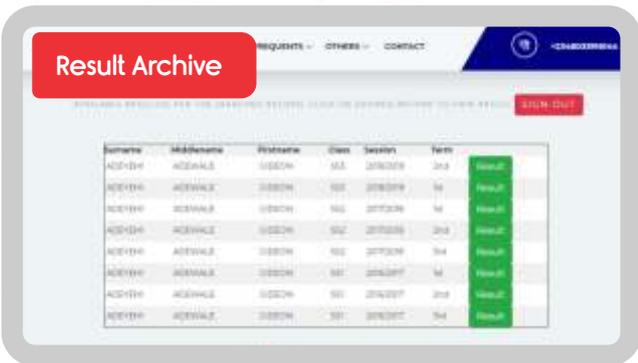

Virtual Classroom

Deliver live, interactive classes with support for audio, video, screen sharing, messaging, and class recording. Schools can host multiple classrooms simultaneously, use pin-based access, and even enable live streaming, all in one seamless environment.

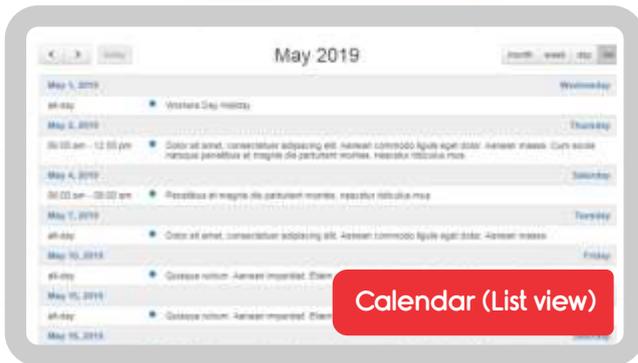

Admin Monitor

Monitor and audit all staff actions on the platform with detailed activity logs. Every admin task is time-stamped, showing the date, time, and exact activity performed, ensuring transparency, accountability, and enhanced system security.

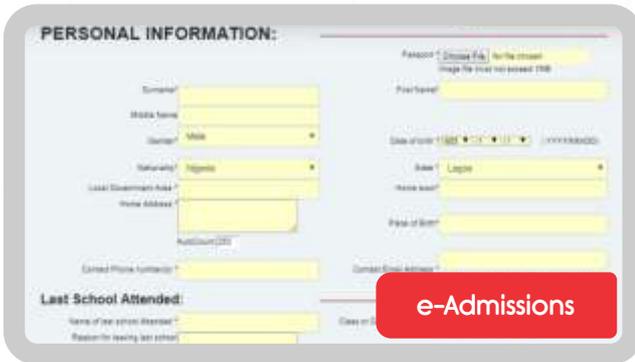

Result Archive

EDUsolutions automatically archives each student's academic records from enrolment to graduation. Even after graduation, schools can easily retrieve results and other records for transcripts, reference, or verification purposes, ensuring long-term accessibility and data integrity.

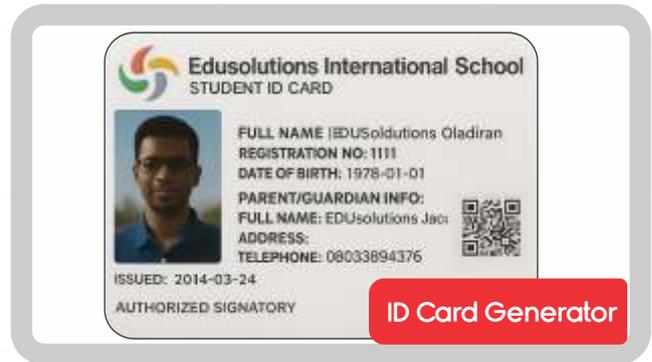

Calendar (List view)

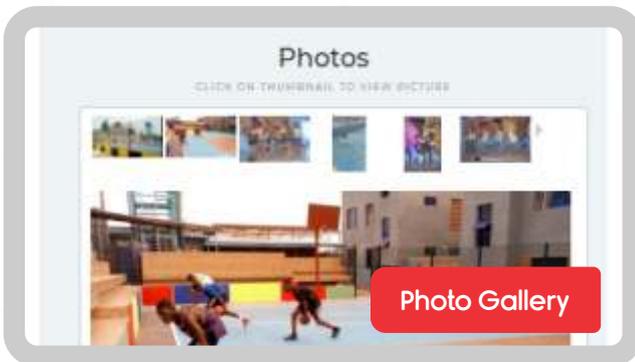

With EDUsolutions' smart calendar, staff, students, and parents stay informed and organised. From exams to PTA meetings and school events, important dates and times are shared instantly, reducing missed activities and boosting engagement across the school community.

Prospective students can apply for admission conveniently from home using our secure online platform. Schools can seamlessly manage applications, screen candidates, and communicate admission decisions instantly via email and SMS – reducing paperwork and speeding up the admission process.

Easily generate professional ID cards for both students and staff directly from the system. Each ID card includes a unique scannable QR code or barcode for added security, enabling quick identity verification and seamless attendance authentication.

Showcase school memories in style! Our interactive photo gallery lets you easily upload event pictures, add captions or descriptions, and organise images in your preferred order. It's a seamless way to document school life and engage parents and students visually.

Easily create and manage class schedules using our intuitive drag-and-drop timetable module. You can also auto-generate timetables to save time and avoid clashes. Flexible, efficient, and designed for schools of all sizes.

Keep staff and parents informed in real-time! EDUsolutions sends instant SMS notifications for key activities like student/staff registration, payment uploads, attendance updates, admission applications, and more, directly to their mobile phones.

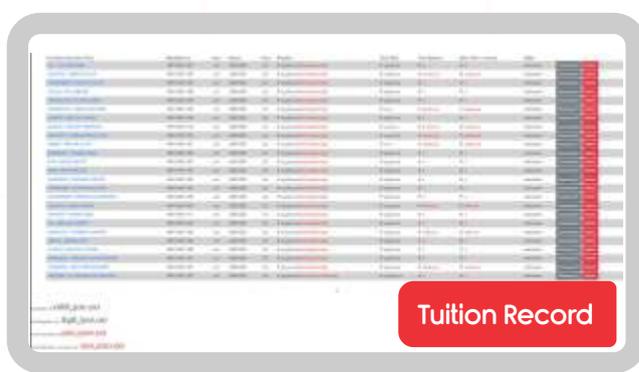

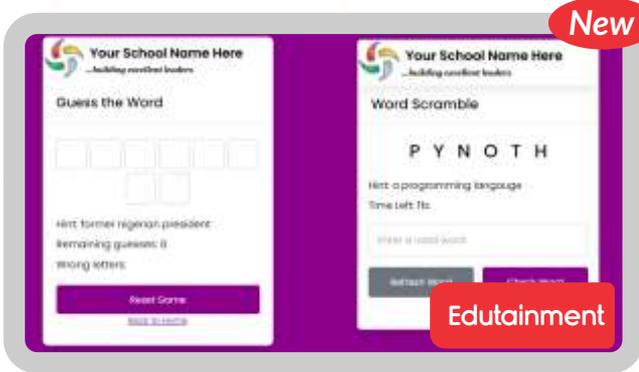

Send timely announcements and updates to parents and staff with ease. EDUsolutions' Bulk Messaging feature leverages your existing student and staff records, enabling quick, targeted communication directly from your portal, no need to upload new contacts.

Easily generate and print electronic testimonials and transcripts for your students directly from EDUSolutions. These official documents include a secure online e-Checker for instant verification, ensuring authenticity and saving valuable administrative time.

Use PIN-cards to grant students secure access to results, testimonial, online exams, library, payment records, & more

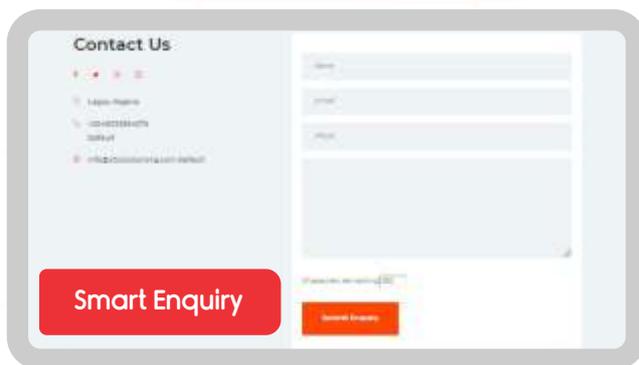

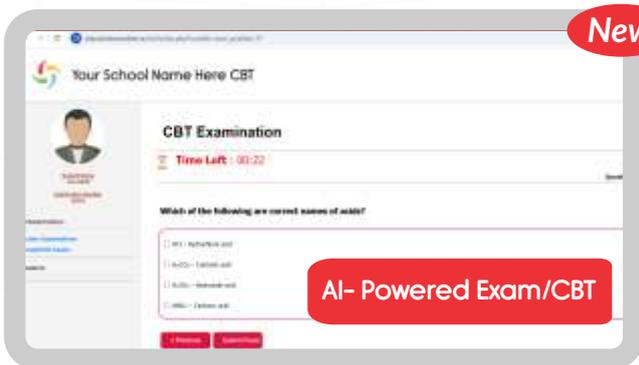

Bonus Benefit: Generate PIN-cards at zero cost and optionally distribute or sell them to students—turning access into a revenue-generating opportunity for your school.

Learning Through Play. EduSolutions' Eduainment module offers interactive educational games like Word Guess, Word Scramble, and more, designed to boost learning through fun.

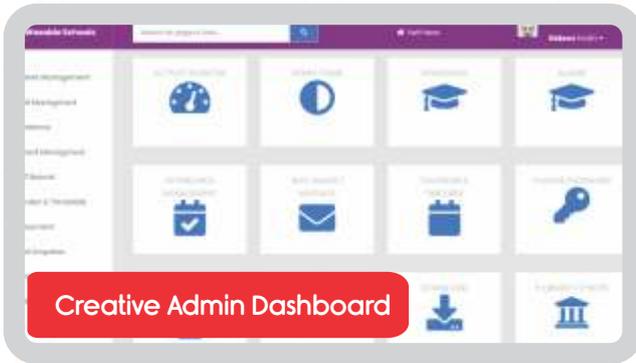

Easily manage student payments with our intuitive tuition record system. Track fees, monitor balances, issue receipts, and ensure transparency with real-time updates accessible to both schools and parents.

Schools can easily update the word/game database to align with their curriculum, creating a dynamic, engaging experience that entertains while educating.

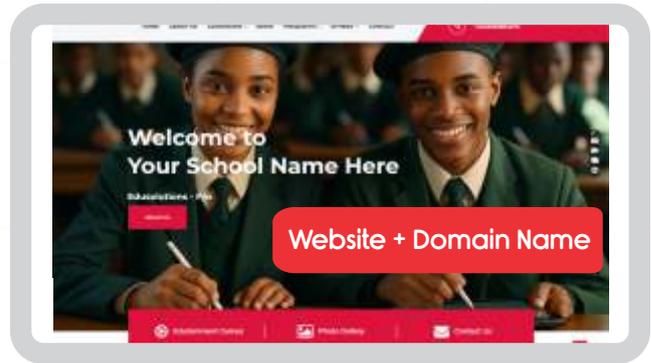

EDUSolutions offers Basic and Advanced CBT systems with integrated AI monitoring for secure, anti-cheat exams. Supports Multiple Choice, Multi-Select, Fill-in-the-Gap, and Randomised Questions. Ideal for Entrance Exams, Recruitment Tests, Assignments, and Mocks, ensuring efficiency, flexibility, and integrity for your school.

Manage school enquiries efficiently with our smart reply system. Responses are automatically sent to the enquirer's email and phone number, ensuring prompt communication. All enquiries and responses are archived securely on your portal for easy tracking and future reference.

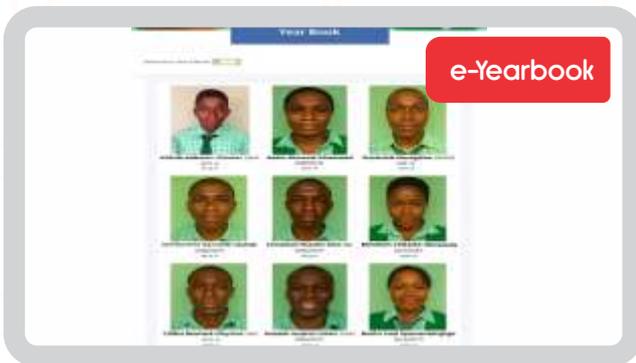

Creative Admin Dashboard

EDUsolutions provides a powerful and intuitive admin dashboard where all administrative and learning management modules are seamlessly managed. With 100+ themes, multiple design layouts, and a user-friendly interface, administrators can customise the look and feel to suit their style or mood, making school operations efficient, engaging, & effortlessly controlled from a central hub.

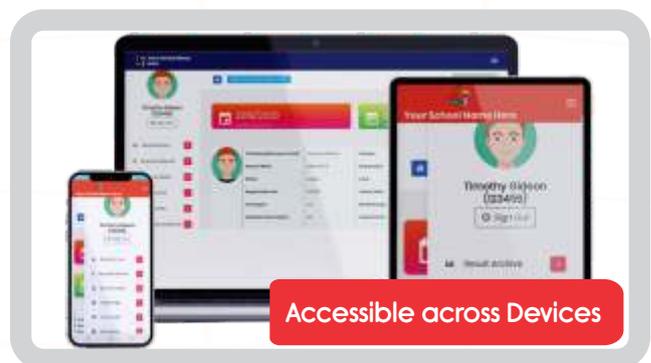

Website + Domain Name

Complementary Website with Unique Domain EduSolutions consists of a complementary standard website and a unique domain name that showcases your school to millions of local and global audiences. There are multiple website templates to choose from, and the website functions as a CMS where activities can be uploaded and managed easily with click-and-upload tools.

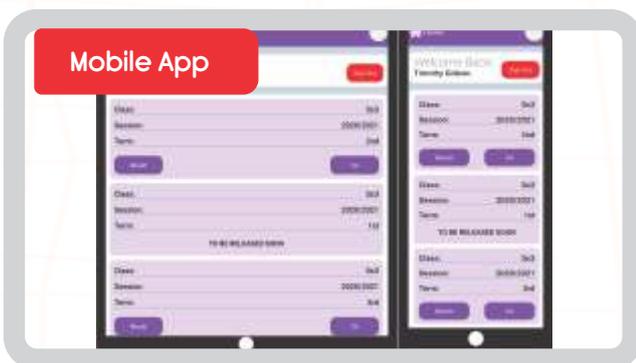

e-Yearbook

EDUsolutions smartly generates your school's yearbook using existing student records. Alumni and visitors can easily browse by graduation year to find photos and reconnect with old classmates, preserving school memories for years to come.

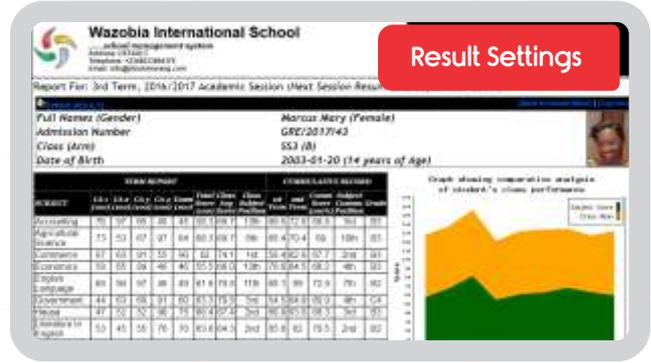

Accessible across Devices

EDUsolutions is designed to work smoothly across all your devices, from mobile phones and tablets to laptops and desktops. Whether you're at school, at home, or on the go, you can access your portal, view results, take exams, make payments, and more, without limits, just log in and connect from anywhere.

Mobile App

The EDUsolutions mobile app is smart, fast, and easy to use, designed to keep parents and students connected on the go. With just a few taps, users can access academic results, download report cards, and share them instantly. The app provides a seamless experience for users.

Result Settings

Tailor your result system to match your school's unique academic structure. Define your preferred CA-to-Exam ratio, set score limits, customise grading and collation methods, and personalise result graphs with your chosen colours and performance indicators. Every report card on EDUsolutions also features a built-in security verifier for authenticity and trust.

GENERAL INFORMATION REQUIRED

(All fields are required)

1. School Name
2. Preferred Domain Names
(Provide 3 options in order of preference – e.g. www.yourpreferredschoolname.org)
3. School Slogan / Motto
4. Email Addresses to be created on your domain (e.g. username@yourpreferredschoolname.org)
5. Contact Details – Include current phone numbers and active email address(es)
6. Year School Was Founded
7. Physical Address and Branch Locations (Include P.O. Box where applicable)
8. About Your School
A brief overview including:
 - Who you are
 - Location
 - Vision & Mission statements
 - Enrollment
 - Key activities and achievements
9. Message and Photos from the Proprietor's / Administrator's Desk
10. List, Photos, and Descriptions of at least 6 Facilities
(e.g. Laboratories, Boarding, Sports, Medical, Library, Computer/ICT, etc.)
11. List of Classes and Class Arms
12. List / Description of Subjects Offered
(Include corresponding classes – e.g. Physics – SS1, SS2, SS3)
13. Sample Admission Forms & Procedure
(PDF file or hard copy of admission form and application process)
14. Scanned Copy of Report Card, Grading & Ranking System
(To help configure result and grade management system)
15. Preferred Colour Scheme / Theme for Your Portal
16. List of Frequently Asked Questions (FAQs) and their answers
(As commonly asked by parents/guardians)
17. Electronic Copies of Key Documents and Photos, such as:
 - School prospectus
 - School logo
 - Photos of school buildings & structures
 - School events
 - Staff group photos
 - Student group photos
 - Proprietor/Administrator and key officials' photos
18. Full Names and Scanned Signatures
(Of the Proprietor/Administrator, Principal or Counselor – for use on report cards & ID cards)
19. Any Other Information or Document
(That will support the completion of your portal)
20. Application for Online Payment Integration
(Only required for schools opting to include payment platforms on their portal)

Please ensure all text and graphics are submitted in electronic format. All textual content should be proofread for errors before submission.

Once completed, kindly send the entire document and materials via email to: info@edusolutionsonline.us. For assistance with this form, call: 0703 393 4211, 0806 837 3182

There are two costs associated with the EduSolutions software:

EduSolutions Pro Setup & Configuration Fee – One-time payment

EduSolutions Pro Annual Subscription Fee – Yearly renewal (free for the first year)

What You Get

- Secure Online Exams with instant automated grading
- Live AI-powered proctoring and cheat detection
- Multiple question types (MCQ, multi-select, fill-in-the-gap & More)
- Bulk exams for recruitment, promotion, school exams & More.
- High-performance servers for glitch-free delivery
- Unique domain name for each client (e.g., yourname.org)

Advanced AI Proctoring

Our AI system monitors students in real-time, detecting:

- Multiple faces (to detect collusion)
- Absence from camera
- Device Tab switching
- Suspicious behaviour
- Camera blocking & More

It automatically flags potential cheating, reducing manual supervision

Powerful infrastructure built for speed, reliability, and zero downtime.

EduSolutions is hosted on enterprise-grade virtual private servers (VPS) designed to deliver optimal performance for schools of any size – from small learning centres to large institutions handling thousands of users simultaneously.

Core Server Specifications

- Multi-core processing for high-speed performance..
- Latest-generation memory for seamless multitasking and fast response times.
- Unmetered Bandwidth – Handle unlimited students, staff, and activities.
- Zero Downtime Guarantee – Reliable uptime for uninterrupted operations.
- Ultra-fast storage technology for quick data access and smooth operation.

Why It Matters

Our premium-tier servers are designed for institutions that require:

- Dedicated Firewalls – Layered protection against unauthorised access.
- High reliability and uptime.
- Speed at scale (hundreds or thousands of users).
- Enterprise-level data protection and compliance.
- Dedicated resources and advanced monitoring.
- Free SSL Certificates – Secure connections for your entire school portal.
